

## STATE PLANNING BOARD [787]

### WATER RESOURCES DRAINAGE BASIN REPORTS, 1934 - 1938

2 microfilm reels

**DESCRIPTION:** This series contains various basin studies prepared by or for the State Planning Board for the Colorado River Basin, the Great Basin, and the Snake River Basin in Utah. The purpose of these reports was to determine the principal water problems in the drainage basins in Utah, to outline a plan of water development and control designed to solve those problems, and to present specific construction projects and investigation projects as elements of the plan, with general priorities of importance and time. The areas under study include the Uintah Basin, Price and San Rafael River areas, Colorado and San Juan River areas, Fremont and Escalante River areas, Virgin River system, Bear River, Weber River, Davis County and Jordan River areas, Utah Lake, Sevier and South Sevier areas, and Western Utah drainage areas. The types of studies include: compilations of data pertaining to the use of land and water; drainage basin problems and programs; envelope records; indexes of river measurement stations; irrigated lands, run-off, precipitation data, and area by elevations by river drainage basins; State Engineer river drainage reports; National Resources Committee drainage basin study; and a preliminary report on flood status of streams in Great Basin. Many of these reports also include maps of the areas.

**ARRANGEMENT:** These reports are arranged alphabetically by drainage basin.

**RELATED RECORDS:** Series 21000 has the WATER RESOURCES MINUTES which document basin committee meetings, 1934-1941. MAPS, series 5597, have maps concerning drainage basin areas. Series 21984, NATIONAL RESOURCES BOARD BULLETINS, has bulletins about drainage basins. Series 21973, ADMINISTRATIVE REFERENCE REPORTS, has record of water studies. WATER RESOURCES REPORTS, series 1180, has

other water related reports.

**PROCESSING NOTE:** This series was processed by M. Call in November 1998 and updated following filming by G. Strack in December 2004. Box and Folder information has been kept for reference purposes only.
